Having a Good Ride!
I ride the school bus every day.  
I ride it to school in the morning.  
I ride it back home again in the afternoon.
It almost always takes the same route, in one direction in the morning and in the opposite direction in the afternoon.
It’s my bus driver’s job to make sure everyone arrives at school or home safely and on time.

*We’re almost there!*
Here are some things I know about my bus.

My bus number is______

My bus driver’s name is ________.

I sit in the ___th seat.
Here are some things I know about riding the bus:

I should stay in my seat when the bus is moving.

I should talk quietly and use a calm voice.

I should keep my hands and arms inside the bus at all times.
Once in a while, something unexpected will happen on the bus.

The engine on the bus could have a breakdown.

There might be construction on the road and we have to go a different way around it.

Traffic might be blocked and we have to wait.
It’s still OK when something unexpected happens on the bus.
If I do these things I know I’ll have a good ride. My bus driver will have a good ride too.
We can all arrive at school or at home safely and on time.
